City Council (4/4/11)

Estimated Cost: \$165,435

Budgeted:

☐ YES

☒ X

☐ NO

If NO, please explain how item will be funded:

Executive Summary:

Truck #1991 is an electric utility Versalift bucket truck on a 2000 GMC C7500 chassis. This truck is budgeted for replacement in the current fiscal year. Four (4) bids were received from the bid process. Bids from Altec Industries and Dueco were evaluated to be in full compliance with the bid specifications. Bids from Power Equipment and Trans/Chicago were judged to not meet the specification. The Dueco bid is lower in total (\$165,435 - \$9,500 trade in) than the Altec bid (\$169,137 - \$10,000 trade in). We will attempt to sell Truck #1991 (online) before the new truck arrives for more than the \$9,500 trade in. If our sale is not successful, we will trade the truck in.

Attachments: *(please list)*

Bid tabulation form

Recommendation/Suggested Action *(briefly explain)*:

Accept the low responsive bid for a 2012 50-foot HiRanger Aerial Device on an International 4300 chassis from Dueco, Inc., for \$165,435.

For office use only:

Agenda Item Number: IA
